SUMMARY

Creative and detail-oriented UI/UX Designer with strong expertise in Figma — wireframing, prototyping, and UI systems — and hands-on experience creating branding and marketing creatives in Canva. Skilled at converting concepts and requirements into clean, modern, user-centered layouts and prototypes for web and mobile, while maintaining consistency with brand guidelines. Comfortable collaborating closely with developers and product teams to deliver pixel-perfect, well-handed-off designs across multiple projects in a fast-paced environment.

SKILLS

UI/UX Design, Figma (Wireframing, Prototyping, UI Systems), Branding & Marketing Creatives, Visual & Brand Consistency, Interaction Design & Micro-interactions, User Flows, High-Fidelity Design, Design Systems, Responsive Design, Typography & Visual Hierarchy, Developer Handoff Documentation

Tools: Figma, Adobe XD, Canva

AI Tools: Claude, ChatGPT, Google Stitch, Gemini, Gamma

CERTIFICATIONS

Start the UX Design Process: Empathize, Define, and Ideate — Google | Oct 2025

Foundations of User Experience (UX) Design — United Latino Students Association | Sep 2025

UI/UX Professional Certificate — eJobIndia | 6-Month Program

PROFESSIONAL EXPERIENCE

UI/UX Designer / Web Designer — Dgtalists Solution Pvt. Ltd. | Jan 2026 – Present (8 months)

- Design website interfaces, mobile applications, landing pages, and digital experiences using Figma.
- Create user flows, wireframes, high-fidelity UI designs, and interactive prototypes with reusable, design-system-friendly components.
- Work on website structure, navigation, visual hierarchy, typography, spacing, responsive layouts, and overall user experience.
- Create supporting creative assets and maintain visual/brand consistency across projects.
- Prepare clean, organized Figma files for developer handoff, and collaborate with developers and business stakeholders from concept through delivery.
- Apply working knowledge of HTML5, CSS3, JavaScript, Bootstrap, and React to design with technical feasibility and front-end structure in mind.
- Work across projects in different industries, including food, consulting, real estate, and healthcare/medical assistance.

Selected Professional Projects

Milkana Professional — Cheese Company Website

- Designed website interfaces and wireframes for Milkana Professional, a cheese and food-service brand.
- Worked on product category, industry, About Us, and other website sections.
- Created structured product-focused layouts with clear visual hierarchy and responsive design considerations.

Pivot — Consulting Website

- Designed multiple pages and user experiences for a consulting website.
- Worked on Services, Service Detail, Vision, Contact Us, Gallery, Events, Event Detail, and Blog pages.
- Designed separate B2B and B2C experiences while maintaining a consistent visual design system.

- Delivered the About Us page as a coded React component (JSX with accompanying CSS), bridging design and front-end handoff.
- Created navigation structures, service categories, CTA sections, and interactive website components.

IRED — *Real Estate Website*

- Designed and modified website interfaces for a real estate website.
- Worked on business-focused website sections, including the RERA disclosure section.
- Applied consistent typography, spacing, visual hierarchy, and component-based design principles.

Roha — *Medical Assistance App for Cow Owners*

- Designed the UI/UX for a mobile application focused on providing medical assistance to cow owners.
- Created mobile app screens and user flows with a focus on usability and clear information presentation.
- Developed wireframes, high-fidelity UI designs, and interactive prototypes in Figma.

PROJECTS

Kitchmate / Sync & Savor — *Mobile App UI/UX Design | Figma*

- Used advanced Figma prototyping and Smart Animate to build fluid, synchronized micro-interactions for a step-advance recipe experience.
- Designed a mobile application that enables friends and family to cook the same recipe remotely.
- Designed synchronized recipe guidance and integrated video calling experience.
- Created user flows, wireframes, UI screens, and interactive prototypes.
- Designed features including Food Wall and an AI-powered recipe conversion experience.

Rooted — *Plant Care Mobile App | Figma*

- Designed a mobile application focused on plant care and maintenance.
- Created plant profiles and interfaces for tracking watering cycles and sunlight requirements.
- Designed reminders to help users maintain regular plant-care routines.
- Developed wireframes, UI screens, and interactive prototypes.

Tripology — *Travel Website Design | Figma*

- Designed a travel exploration and booking website.
- Created interfaces focused on destination exploration, travel discovery, and booking.
- Designed responsive layouts, user flows, high-fidelity UI screens, and interactive prototypes.

Web Design Projects — *HTML5 | CSS3 | JavaScript | Bootstrap*

- Created website interfaces using HTML5 and CSS3.
- Used JavaScript for basic website interactions and functionality.
- Used Bootstrap to create structured and responsive layouts.
- Applied knowledge of front-end technologies while designing and implementing web interfaces.

EDUCATION
